This document explains Graph Paper Version 1.4.0.

# Graph Paper User Guide

# Chapter 1. Introduction

## 1.1. Overview

Graph Paper is an idea organizing application such as mind mapping with handwriting for Android tablets.

## 1.2. Key Features

- Directly channel your thoughts using Stylus and Finger
- Multiple mindmaps ( central nodes ) in one document
- PDF Export (Premium Subscription)
- Multiple Pen Colors (Premium Subscription)

## 1.3. Requirements

- Android 4.4 Kitkat or newer.
- An Android tablet with S-Pen support

This app is designed for Stylus such as S-Pen.

If your android tablet does not have Stylus support, you can choose **Non S-Pen Mode** in the settings.

## 1.4. Installation

Get the [Graph Paper for S-Pen](#) app on Google Play.

## 1.5. Getting help

If you have any questions, please [make contact](#). And also your feedback will be much appreciated.

To get update information, see [Facebook](#) / [Twitter](#).

# Chapter 2. Using Graph Paper

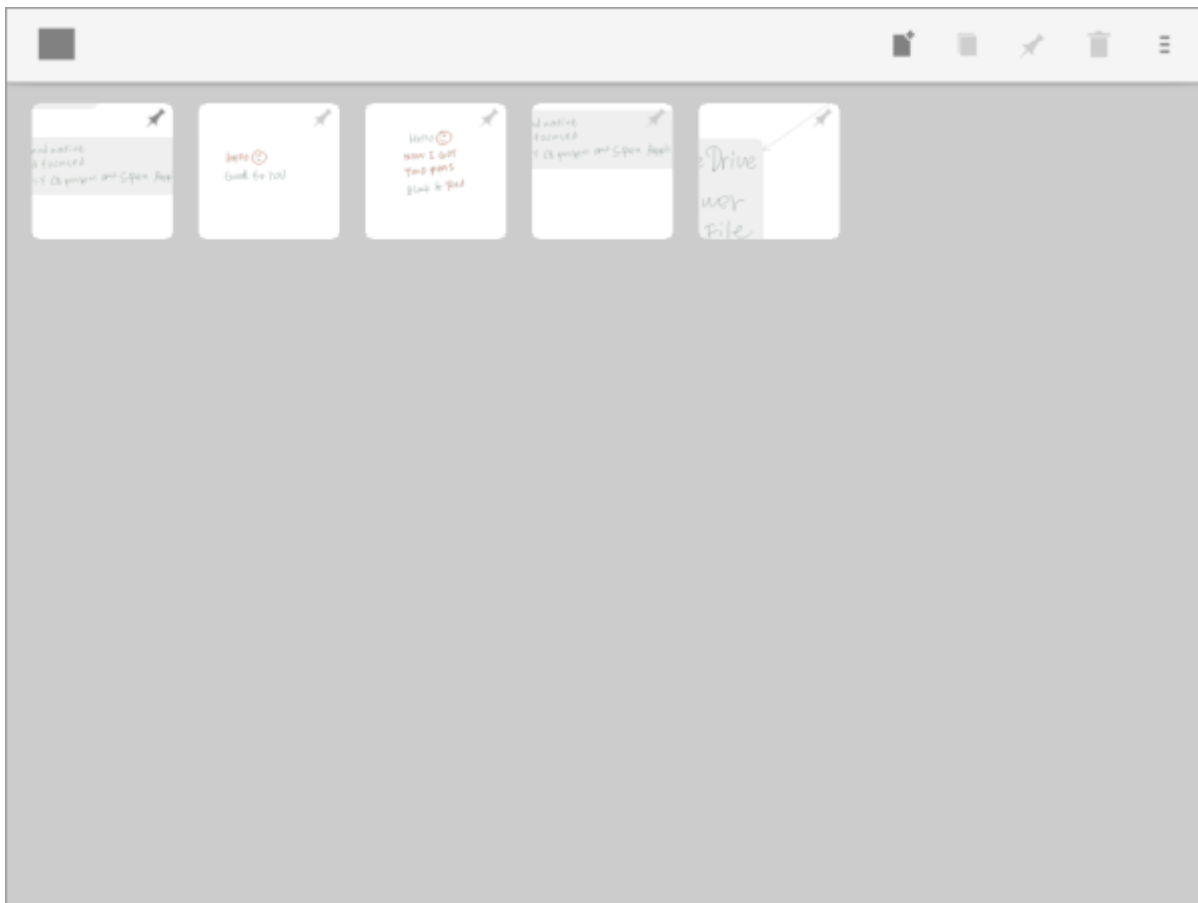

## 2.1. Overview

There are three screens.

- (1) File Manager
- (2) Editor
- (3) Settings (Current Document Settings)

## 2.2. (1) File Manager

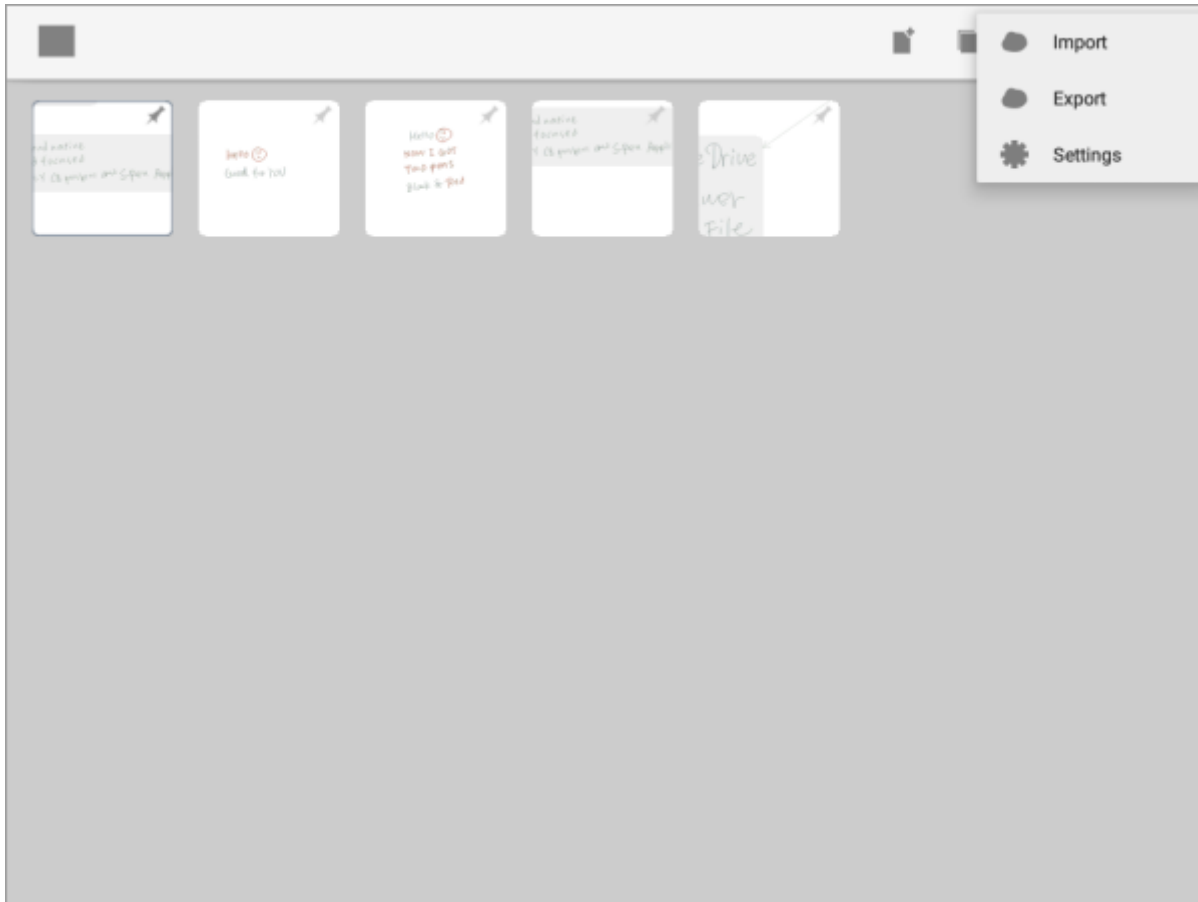

This is for document management.

-  Go Back to Editor
-  Add New document
-  Copy document
-  Pin document

-  Menu

### 2.2.1. Menu

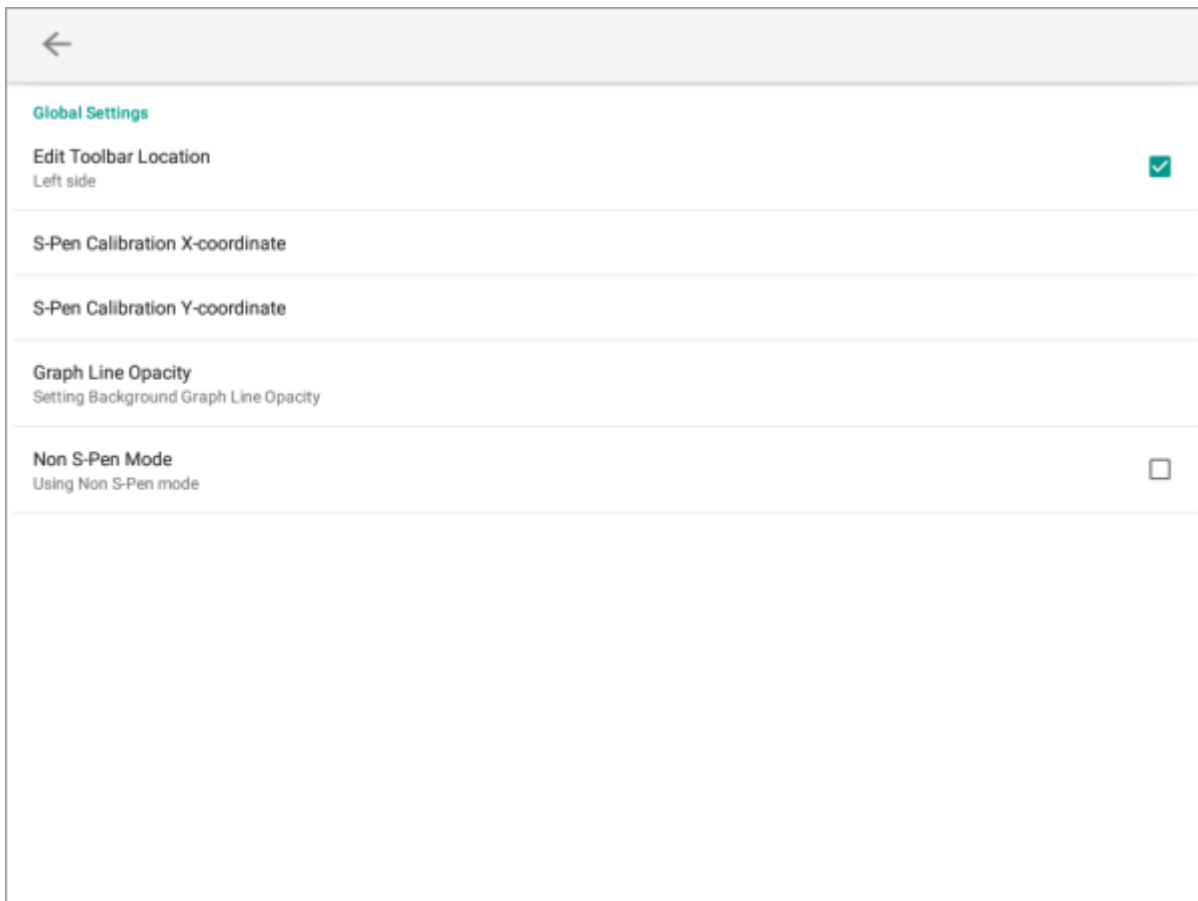

-  Import document from Google Drive
-  Export selected document in Google Drive
-  Settings (Global Settings)

### 2.2.2. Settings (Global Settings)

This is for Application Global Settings.

### Edit Toolbar Location

You can choose the **Edit Toolbar**  location **Left** or **Right** side.

### S-Pen Calibration

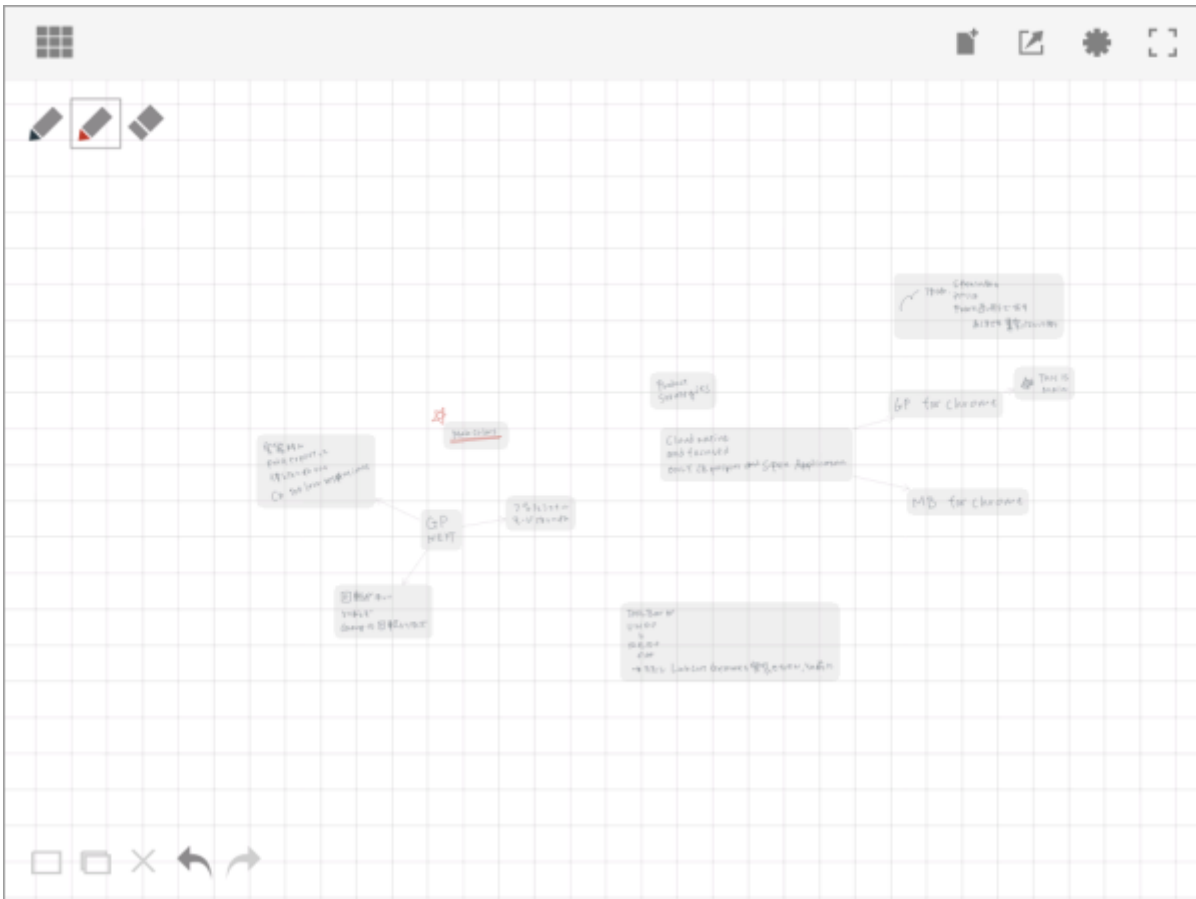

If you use another style such as Wacom Bamboo Stylus feel or any other S-Pen compatible stylus, this option is useful.

### Non S-Pen Mode

- Check this on if your android device does not have stylus support.

## 2.3. (2) Editor

This is for writing down your thoughts and mind mapping.

When write down your thoughts, use **Stylus** such as S-Pen, when manipulate them, use **with Finger**.

- Writing down your thoughts with strokes ( **Stylus** )
- Erasing strokes ( **Stylus** )
- Zoom and Scroll (**Two Fingers**)
- Zoom in (**Double Tap with One Finger**)
- Make Group (**Finger**)
- Move Group (**Finger**)
- Copy Group
- Ungroup (**Finger**)
- Link Groups (**Finger**)
- Delete Group (**Finger**)

#### ActionBar

-  Go to File Manager
-  Add New Document
-  Export current active document as PNG or PDF
-

Settings
